How to Create and Upload an ISO to DiscPrinting.com.au

Creating the ISO for Upload

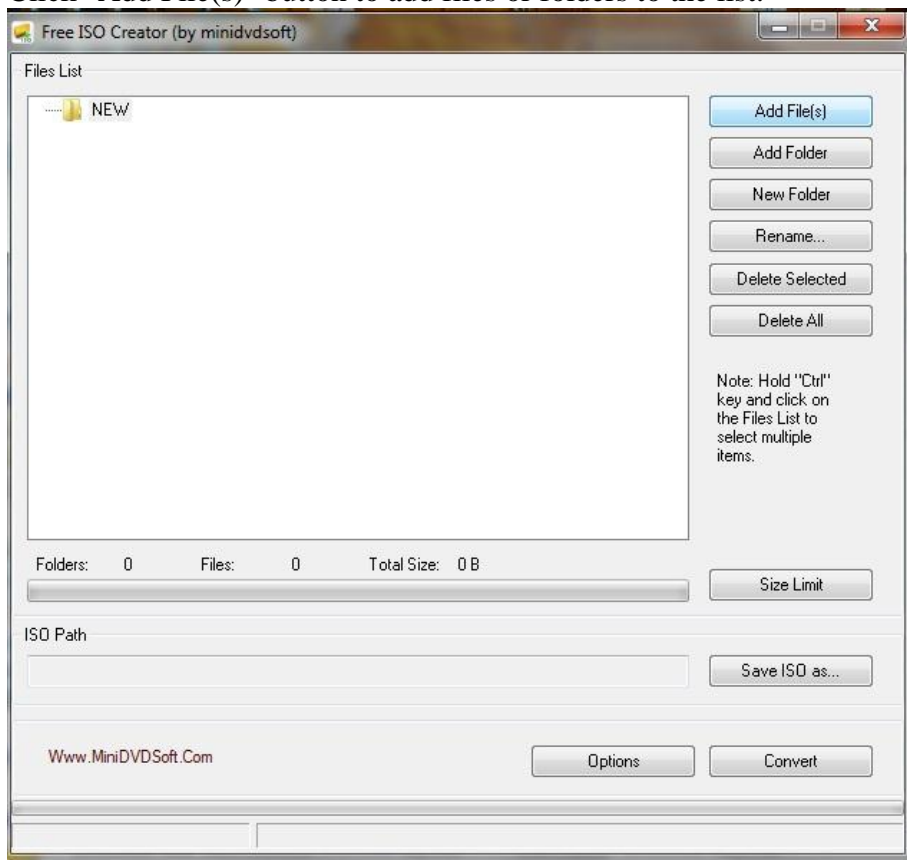

1. Download the FTP.zip from
<http://www.discprinting.com.au/printlogic/ftp.zip>
2. Extract FTP.zip to a folder on your computer (Note: Extraction may differ on your PC based on programs eg. WinRAR, WinZIP, etc.)

3. Open the folder called ISO and Run ISO Builder.exe

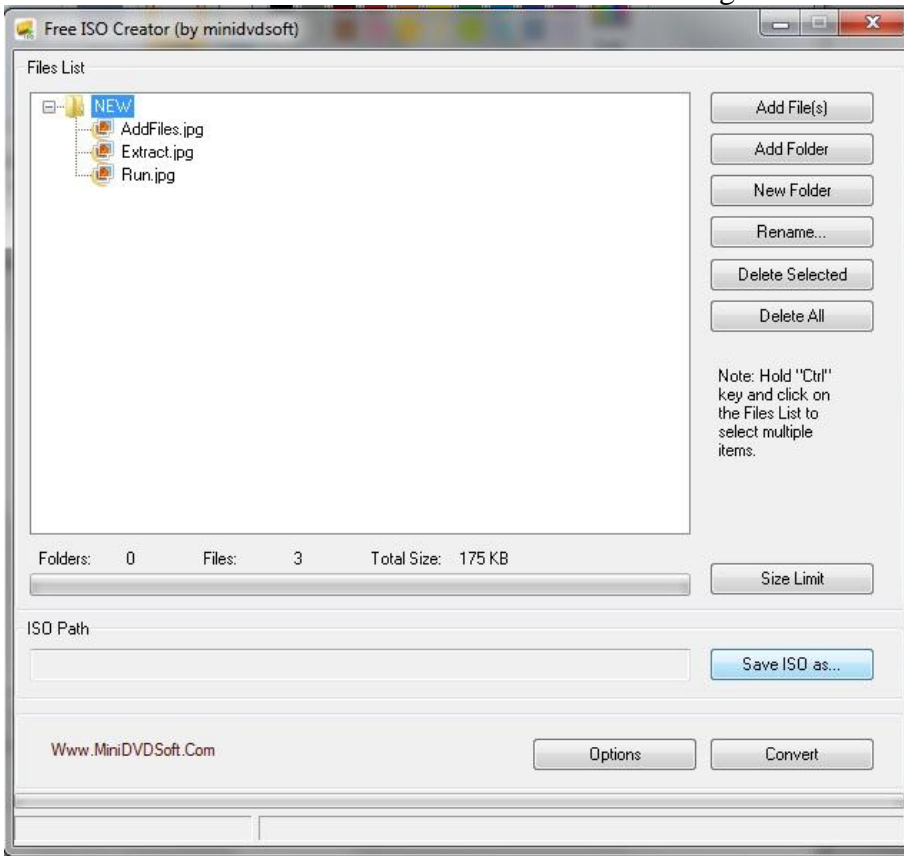

4. Click "Add File(s)" button to add files or folders to the list.

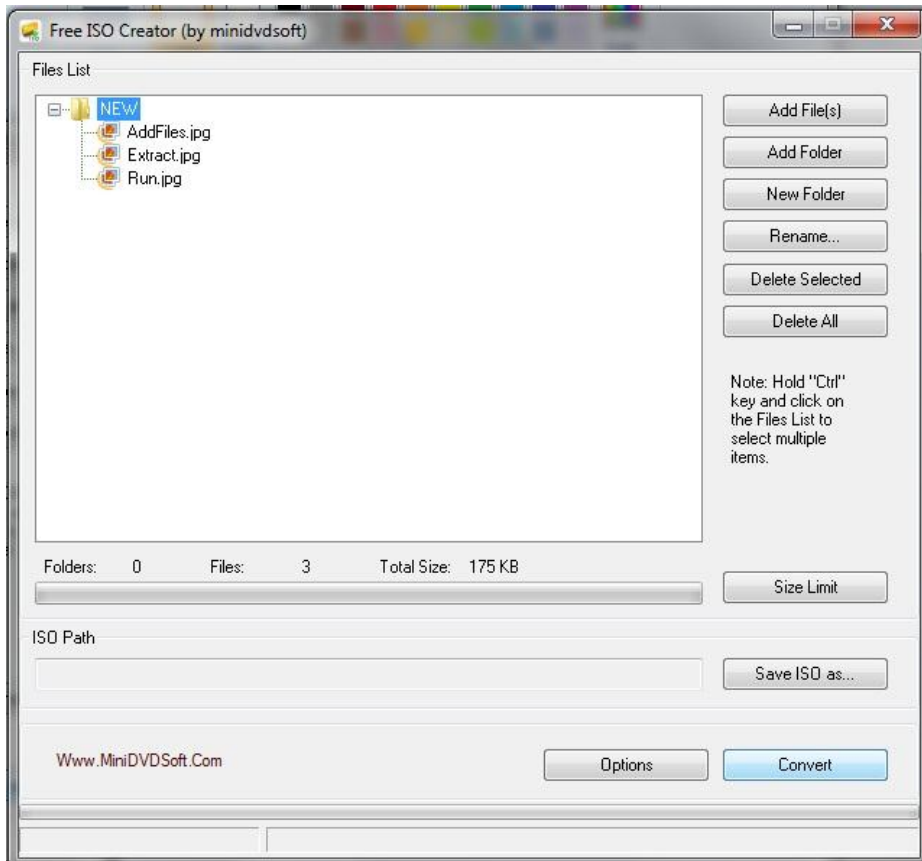

5. Select your Disk Drive where the disk you want to upload is inserted (Eg. D:/) to create an ISO of that disk (If you are creating a data disk such as pictures you can select the images or the folder containing the images.)

6. Click "Save ISO As" choose where to save the ISO image file.

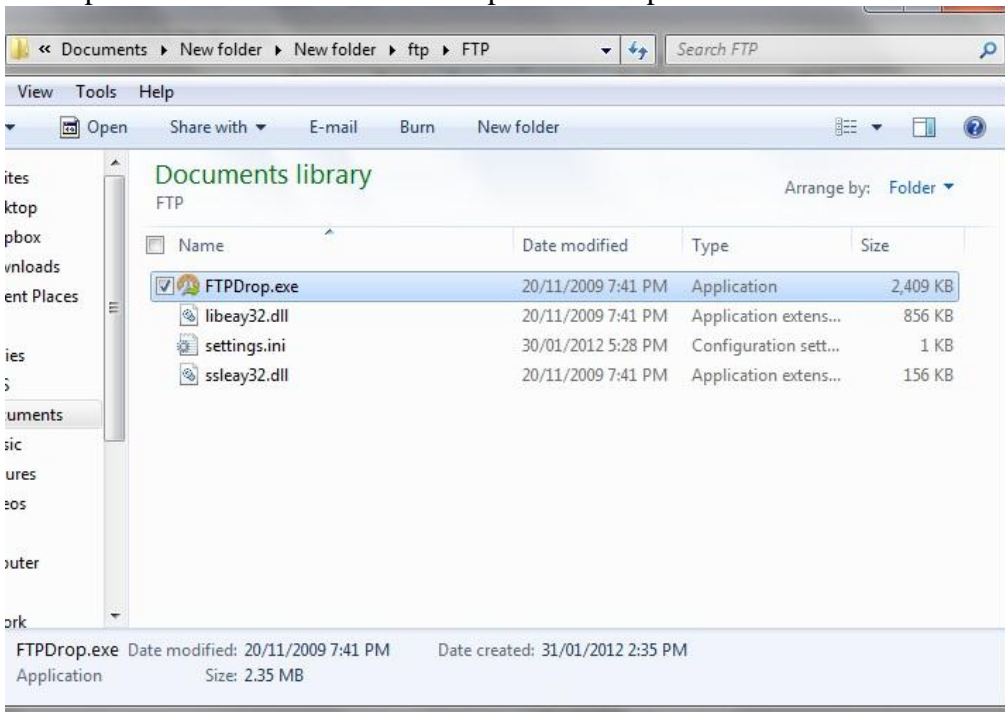

7. Click Convert to Create the ISO file in the selected location.

Uploading the ISO to DiscPrinting.com.au

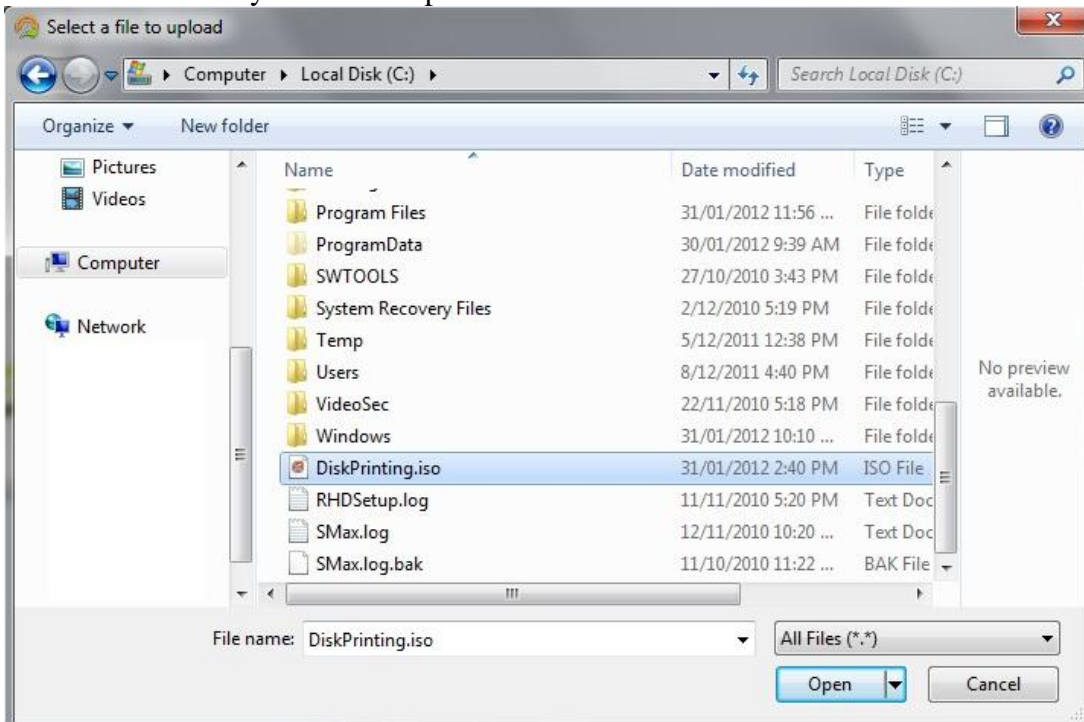

1. Open the folder called FTP and open FTPDrop.exe

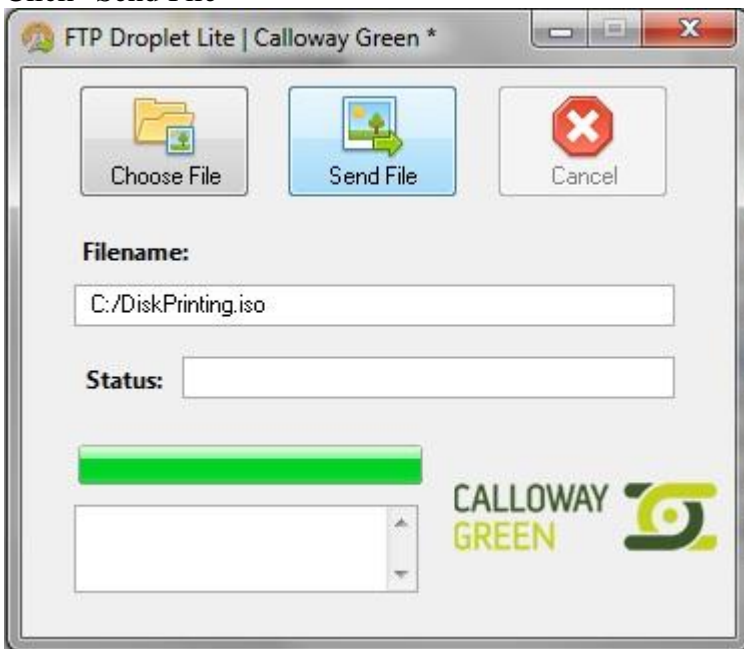

2. Click "Choose File."

3. Browse to the ISO you want to upload.

4. Click "Send File"

5. The ISO file is now being uploaded after the upload is completed you can now close FTP Droplet.
